

My name is Mark Smith and this is my testimony for Jesus Christ. When I was 21 and going through at the time what seemed a rough patch, a good friend of mine talked to me and said what I needed was Jesus in my life.

So he prayed with me. That was my time of being saved. Fast forward three decades, I was shown maybe what I had done just maybe wasn't all of what I needed to be in order to have salvation. I learned and studied His word, listened to teachings and testimonies from others and I found what I really needed. I prayed, asked the Lord for His forgiveness and for Him to take over my life. And I was baptized in His glory. Now this is only part of my story. You cannot forget the people that the Lord brought in my life and used to guide me. My Mother brought me to church and was my introduction to Jesus. Ed Ghosn was the friend who prayed with me. The wonderful wife the Lord blessed me with, who without her constant direction, I may not have remained going to church. Which allowed me to hear the message the Lord wanted me to hear. Heath Ulmer who spoke of what it was to have the Lord guiding your life and all of our church family and their support. And my beautiful daughter who shows me every day how the Lord can shine through a blessed child.

This shows how the Lord uses people to save others in this world. May I be the help for someone else with His guidance.
